

**Magic Jeanne at Oak Hill Academy and Marin Academic**

**Date: Feb. 15, 2011**

**Host: Tracey Rose**

**Host in Training: Jenny Love**

**Essence Story by Jenny Love:**

As the children arrived in the hall and took their seats there was the initial unsettledness as adults assisting the kids with were to sit and getting them settled. As Jeanne started playing her music and caught the children's attention by having them call out their names she then kept them focused as she quickly caught them up with her magic.

Moving from one amazing trick to the next she held her audience spellbound, both adults and children and left them wondering just how she did these all these amazing tricks.

She had one child come up and assist her and he was very excited to have been chosen as he real interest in magic. There were several other times when she asked for volunteers. Hands went up around with eager enthusiasm and many children got the opportunity to assist. Everyone was made a part of the show as Jeanne went around the room with her silk scarves, wiping glasses and dusting off faces, bringing smiles and laughter from the children.

There was a real appreciation of Magic Jeanne's talent from everyone there. By her slight of hand and quick movement she had held the attention of her entire audience.
